

FreseniusRx

INFORMATION FOR PATIENTS

FreseniusRx Information for Patients

WHICH MEDICATIONS DOES FRESENIUSRX PROVIDE?

We provide medications, including Sensipar®, phosphorus binders and vitamins, to help manage kidney disease. Ask your clinic staff for a full list, available on the FreseniusRx Medication Management Worksheet.

HOW MUCH DOES IT COST?

Cost is determined by your insurance coverage and medication. If you need help with the cost of medications, talk to your clinic social worker. They can identify programs that may be available to you. For more information, see the financial resources section on the back of this page.

Depending on your insurance and medication, your copay could be as low as \$0.

WHAT IF I HAVE QUESTIONS?

You can speak to your pharmacist 24/7 by calling 1-800-947-3131 for questions about medications, side effects or drug interactions.

HOW DO I GET STARTED?

Signing up for FreseniusRx is quick and easy! Ask the staff at your dialysis center to help get you started. Any patient who receives dialysis at a Fresenius Kidney Care clinic may be eligible to use FreseniusRx. The pharmacy is a provider for many prescription programs, including Medicare Part D and commercial plans. You have the choice to use any pharmacy and can change pharmacies at any time. Your decision will not affect your dialysis treatments.

For more information, call FreseniusRx at **1-800-947-3131** or visit **www.freseniusrx.com**.

HOW DOES FRESENIUSRX WORK?

You review and sign pharmacy paperwork with your clinic staff.

We work with insurance to get your medications approved and with your clinic team to keep your prescriptions up-to-date.

We deliver medication to your home or clinic* for pick-up.

**Clinic delivery not available in all states.*

Follow Your Prescription

Taking your medications when and how your doctor prescribes them is an important step in taking control of your health. FreseniusRx wants to help you manage your medications. Fresenius Kidney Care dialysis patients who use FreseniusRx may have better lab values.¹

Better Lab Values

Ask Questions

We work with your doctor, nurse, dietitian and social worker to make sure you get the medication you need for the best possible care. You can contact the pharmacy for questions about your medication, orders, refills or billing by calling 1-800-947-3131.

Find Financial Resources

Your health is important and taking your medications can make a difference in your health and how you feel. If you need help with your copay or prescription costs, there are many programs available.

COPAY CARDS

There are copay cards for many of the common medications prescribed to patients on dialysis. If you are taking any of the following medications and need help with your copay, work with your clinic staff to see if you are eligible for these discounts.

- Auryxia®
- Renvela®
- Sensipar®
- Velphoro®

PATIENT ASSISTANCE PROGRAMS

Your clinic staff can help you identify programs for which you may be eligible. Eligibility is generally based on medication, insurance and income.

- Medicare Prescription Help (LIS)
- HealthWell Foundation
- The Assistance Fund

PAYMENT OPTIONS

FreseniusRx offers a variety of billing plans to help meet your needs, including a convenient monthly billing option. Payments can be made with a check, money order, most major credit cards or prepaid cards (fees vary by card and retailer). Call the pharmacy to find out more about your options.
